The set-up charge for the set-up of the room according to your wishes occur regardless of accommodation and catering revenue and will be charged once per event.

The space charges are minimum consumption with full revenue credits: The food and beverage revenue (also Conference Packages) reduces the space charges for the resulting total bill. If this revenue below the said sum, the difference is constituted as room rental fee. Billing will be made per day.

When booking additional rooms the room rental will be charged.
